EXPERIENCE

Software Engineer II – Frontend (Angular)

Jul 2024 — Present

IMPARN Fintech Software Solutions India Private Limited · Hyderabad, IN

- Engineered a scalable Micro-Frontend (MFE) banking architecture, orchestrating host shell to embed modular child apps.
- Developed a shared UI library published to a private NPM registry, optimizing developer experience (DX).
- Designed and implemented a generic data table component featuring multi-type filtering, manual column reordering, and client-side layout state preservation.
- Integrated Keycloak authentication to manage granular user permissions, architecting a dynamic menu system that conditionally restricts UI actions and navigation.

Frontend Web Development Intern

Jan 2024 — Jun 2024

IMPARN Fintech Software Solutions India Private Limited · Hyderabad, IN

- Developed and deployed enterprise-scale employee Self-Service Portal (SSP) web interfaces using Angular, driving a 15% increase in user interaction.
- Engineered a secure, data-driven availability calendar with dynamic visibility hierarchies.
- Spearheaded the development of a reusable UI component library, reducing code duplication by 25%.
- Optimized client-side rendering through semantic HTML5 and CSS3 grid architectures.
